

Alzheimer's Through the Alphabet

Wednesday, November 14, 2018

1:00-2:00

Leslie Hergert's memoir of her experience with her husband Ralph's long Alzheimer's journey is a quirky mix of logistics and feelings, sadness and humor. The book was called by one reader, "a frank, insightful and often funny companion in my role as caregiver." This presentation will feature upbeat excerpts from the book and an open discussion. Hergert is a speaker and volunteer with the Alzheimer's Association.
