About Spring Forward

Our Mission
We aim to raise deeper awareness about climate change and empowr students with knowledge about why the climate crisis is so important through education on science and environmental justice.

Our Story
Spring Forward is an education initiative that is run by high school students. We started because although some students are learning to turn off lights and pick up trash, we strive to take it a step further and empower students with knowledge on the science of climate change as well as why it is a social justice issue which ties into other forms of systemic oppression. This knowledge will give students the tools and resources to make the right choices in their daily life. We plan to shift students' mindset in a youth to youth approach.

Our Core Team:

Amelia Kane

Karen Li

Simone Colburn

Alice Fan
WHAT?
This summer, Spring Forward is offering **free online interactive workshops and activities** for ages 6 to 12 on climate change and climate justice. Each workshop will be 40 - 60 minutes long. You can find an overview of Spring Forward’s full curriculum [here](#) and the dates are posted on our [website](#). You can also fill out our [interest form](#) to receive an email with the information.

WHO?
While Spring Forward does offer some recommendations for age ranges for each individual workshop it offers, **all youth are welcome to participate** in any of Spring Forward’s programs this summer.

WHEN?
The first workshops will begin on Wednesday, June 24th and Saturday, June 27th at 4PM. Be sure to check out our Summer 2020 Online Workshops [calendar](#) to view all the dates! You are
encouraged to attend as many workshops as you would like. They will each have different content but you do not have to go to all of them.

WHY?
Spring Forward’s mission is to empower students to become conscious global citizens through climate education. Through a youth-to-youth approach, we connect with young students to teach them about the science, history, and far reaching consequences of climate change in all aspects of our society today. This understanding about climate change and justice is critical not only for our generation, but for many more to come.

WHERE?
Spring Forward will be using Zoom to conduct this summer’s workshops. After you fill out the sign up form, you will receive an email with more information and the zoom link.

If you have any questions, feel free to email springforwardclimate@gmail.com.

Sign Up

1. Look over our website and this brochure for more information about what Spring Forward is and what the lesson will look like.

2. Fill out this form to sign up
   a. https://forms.gle/NexcMzdtprIZVCBV8

3. We will get back to you with more information and the zoom link shortly.

4. You can always reach out to us with any questions, comments or concerns at springforwardclimate@gmail.com.
# Upcoming Workshops

## Intro to Climate Change Workshop

<table>
<thead>
<tr>
<th>Overview</th>
<th>Logistics</th>
</tr>
</thead>
</table>
| This interactive workshop covers the basics of climate change. Students will be given various statements about the climate crisis to discuss and a video will be presented. Students will also be given prompts to continue the discussion at home. | Age Recommendation: 7 - 10 year olds  
40 minutes  
Online - via Zoom  
Wednesday June 24th at 4:00pm EST |

## Basic Science Behind Climate Change Workshop

<table>
<thead>
<tr>
<th>Overview</th>
<th>Logistics</th>
</tr>
</thead>
</table>
| This interactive workshop aims to educate young students on climate science, with a focus on the greenhouse effect and a drastic change in temperatures all around the world. The lesson has a short graph activity and conversations of the world around us. | Age Recommendation: 8 - 11 year olds  
55 minutes  
Online - via Zoom  
Saturday June 27th at 4:00pm EST |

There are many more workshops coming up so be sure to check our [calendar](#). Spring Forward has a [variety of lessons](#) planned for different age groups and we are adding content every day, so if you have any suggestions or specific lessons you would like us to do please let us know at [springforwardclimate@gmail.com](mailto:springforwardclimate@gmail.com)
