MA Association of the Blind and Visually Impaired (MABVI) Presentation

Wednesday, September 24, 2025

1 – 2:00 p.m.

In-Person

Join Aaron Spelker, an accessibility technology trainer for the Massachusetts Association for the Blind and Visually Impaired (MABVI) for a presentation about the organization's technology services. Massachusetts citizens can get accessibility training services for free from MABVI through a referral from their Massachusetts Commission for the Blind (MCB) counselor. MABVI has a group of trainers that provide lessons on:

- iPhone and iPad Voiceover
- Android Talkback
- JAWS, NVDA, and Narrator Screen Readers for PC
- Voiceover Screen Reader for a MAC Computer
- Braille Note
- Meta AI Sunglasses
- Etc.

In addition, MABVI has a partnership with the 'Tech Goes Home' initiative to provide iPads and training to blind and visually impaired individuals. This program gets smart devices into the hands of visually impaired individuals so they can participate fully in the information revolution.

MABVI provides training remotely and in-person at approximately a dozen locations across the state. Aaron will discuss ways that MABVI can serve blind and low vision Cambridge residents.

For more information, call the Council on Aging at 617-349-6220

This program is for ages 60 years and older.
